## Optical Bistability Controlling Light Gibbs

**analytical model for optical bistability in nonlinear ...** - analytical model for optical bistability in nonlinear metal nano-antennae involving kerr ... optical bistability: controlling light with light, ... **cavity enhanced nonlinear optics for few photon optical ...** - gibbs, optical bistability: controlling light with light (academic press, 1985). 3. d. a. b. miller, "are optical transistors the logical next step?" **controlling the optical bistability and multistability via ...** - controlling the optical bistability and multistability via atom localization ... for the same input intensity which are suitable for controlling the light by light. **optical bistability: controlling light with light (optics ...** - optical bistability: controlling light with light (optics & photonics series) optical bistability: controlling light with light (optics & photonics series) por hyatt ... **enhanced nonlinear optics in photonic-crystal microcavities** - enhanced nonlinear optics in photonic-crystal microcavities ... showing optical bistability properties. ... gibbs, optical bistability: controlling light with light ... **nonlinear and adiabatic control of high-q photonic crystal ...** - nonlinear and adiabatic control of high-q photonic crystal nanocavities ... optical bistability: controlling light with light. (academic press, ... **controlling optical bistability in a five-level cascade ...** - controlling optical bistability in a five-level cascade eit medium 37 where c and e are the speed of light and permittivity of free space, respectively;  $p(w$  **low-threshold bistability in nonlinear microring tower ...** - low-threshold bistability in nonlinear microring tower resonator ... optical bistability in nonlinear defect ... optical bistability: controlling light with light ... **nonvolatile polarization control of a bistable vcsel** - nonvolatile polarization control of a bistable ... optical bistability,controlling light with light ... since the discovery of bistability in optical resonators, ... **optical bistability of graphene inthe terahertzrange** - optical bistability of graphene inthe terahertzrange ... optical bistability is a way of controlling light with light1,2. bistability refers to an optical effect where a **optical bistability and pulsating behaviour in silicon-on ...** - optical bistability and pulsating behaviour in silicon-on-insulator ring ... gibbs, optical bistability: controlling light with light (academic, orlando, 1985). 1. **tunable optical bistability of graphene-wrapped dielectric ...** - tunable optical bistability of graphene-wrapped dielectric cylinders ... (ob) is a way of controlling light with light [10, 11], **university of groningen optical response of nanohybrids ...** - 108 bibliography [9]g. binnig, ... optical bistability and nonlinearity of coherently ... optical bistability: controlling light with light. elsevier, 1985 ... **university of groningen intrinsic optical bistability of ...** - intrinsic optical bistability of thin films of ... films of linear molecular aggregates: the one-exciton approximation ... of controlling light with light ... **controllable transition between optical bistability and ...** - ob is a way of controlling light with light, ... two optical bistability nesting head-to-tail and then nally conjugating to an optical multistability curve [13{15]. **controlling the optical bistability in a kobrak-rice 5 ...** - controlling the optical bistability in a kobrak-rice 5-level quantum system ... (eit), fast light and all optical switches. ob has been extensively studied both **control of optical bistability via an elliptically ...** - control of optical bistability via an elliptically polarized light in a four-level tripod atomic system ... play a crucial role in controlling the bistable **all-optical switching in subwavelength metallic grating ...** - grating structure containing nonlinear optical materials ... subwavelength metallic grating structure containing ... gibbs, optical bistability: controlling light with **all-optical switching in an open v-type atomic system** - controlling light by light is vital to all-optical communication and optical computing. in the past three decades, ... in this paper, the optical bistability ... **optical bistability with rydberg atoms** - research in optical bistability has been rapidly expanding since its first experimental ... "optical bistability: controlling light with light", academic press, ... **controlling light-with-light without nonlinearity - arxiv** - controlling light-with-light without ... for optical bistability3 to recent quests for all-optical data ... controlling light-with-light without nonlinearity **efficient numerical method for analyzing optical ...** - efficient numerical method for analyzing optical bistability in photonic crystal microcavities ... controlling light with light ... **nonlinear absorption and dispersion in silicon photonic ...** - silicon photonic crystal microresonators excited via an ... optical bistability is ... gibbs, optical bistability: controlling light with light ... **optical multistability in a silicon-core silica- cladding ...** - optical multistability in a silicon-core silica- ... optical bistability: controlling light with light ... silicon-core, silica-cladding fiber mounted inside glass ... **highly efficient all-optical diode action based on light ...** - highly efficient all-optical diode action based on light-tunneling heterostructures ... 24. h. m. gibbs, optical bistability: controlling light with light ... **optical bistability of graphene in the terahertz range** - optical bistability is a way of controlling light with light [1,2]. bistability refers to an optical effect where a system **highly controllable optical bistability effect in a  $\mu\text{m tm}$  ...** - highly controllable optical bistability effect in a 2 ... 8. h. m. gibbs, optical bistability: controlling light with light (academic, 1985) 9. y. **optical bistability in low-dimensional semiconductor ...** - controlling the light by light is essential in all-optical communication and optical computing. ... [21], optical bistability [22], and kerr nonlinearity [23]. **manipulating the optical bistability in a nonlinear ...** - manipulating the optical bistability in a nonlinear plasmonic nanoantenna array with a reflecting surface ... for controlling the operating of nonlinear optical systems **optical bistability forming due to a rydberg state** - optical bistability forming due ... efficiently modify the ob threshold via suitable choices of system-controlling ... it is well known that light can be slowed ... **low-threshold optical**

---

**bistability with multilayer graphene ...** - optical bistability effect in spp-based ... another light source [7, 8]. **bistability in nonlinear optical sys-** ... controlling applied electric fields. **an optical polarization-bistable element based on the ...** - an optical polarization-bistable element based ... —an optical polarization-bistable element scheme based on an he ... **optical bistability: controlling light with characterization and modeling of fano resonances in ...** - resonances in chalcogenide photonic crystal membranes ... gibbs, optical bistability: controlling light with light ... “optical bistability involving photonic ... **compact and low power consumption tunable photonic crystal ...** - compact and low power consumption tunable photonic crystal nanobeam cavity ... **power optical bistability in ...** “optical bistability: controlling light with ... **cavity and waveguide qed lecture 1 - physics.umd** - microwaves visible light micromaser optical bistability ... hyatt m. gibbs, optical bistability: controlling light with light (academic press, orlando, ... **coherent and incoherent manipulation of optical ...** - a new model is suggested for controlling the optical bistability ... we will analyze the controllable optical bistability for transmitted light from the **controlling light with plasmonic nanostructures** - controlling light with ... **controlling light with light: optical transistors diodes interconnectsoptical ...** bistability all-optical switching in nonlinear sppc **self-induced optical modulation of the transmission ...** - self-induced optical modulation of the transmission through a high-q silicon ... **transmission versus wavelength deviates from a simple optical bistability all-optical switching at the fano resonances in ...** - all-optical switching at the fano resonances in subwavelength gratings with very ... onset of the optical bistability for ... **optical bistability: controlling light ... light-induced transition between states in a bistable ...** - light-induced transition between states in a bistable regime at nonlinear magnetic resonance in  $(\text{ch}_3\text{nh}_3)_2\text{cucl}_4$  ... an example of this are optical bistability **research(activity)(3 year&finalreport - unipv** - references: “h. gibbs, optical bistability: controlling light with light (academic press, orlando, 1985 ... research activity, unit 4 demonstrates an all- **optical switching and limiting: new applications for ...** - new applications for silver halide technology? ... optical bistability--controlling light with ... **optical switching and limiting: new applications for silver halide ... resonatorless optical bistability in transmission of thin ...** - resonatorless optical bistability in transmission of thin ... of this pulse, which gives the favourable possibility for the controlling of light transmission **opti 507 here for class website - opticsizona** - basic concepts in crystals and in optical response; optical properties of metals, ... h.m. gibbs, optical bistability: controlling light with light ... **with it is a - confit** - but the lower energetic bistable light emission of the thin cds film is measured. ... optical bistability: controlling light with light (academic press, london, 1985) ... **nano-opto-mechanical memory based on optical gradient ...** - optical gradient force induced bistability ... can be switched by controlling the light power transmitted inside ... power of the write light, the optical **opti 507- solid-state optics - university of arizona** - opti 507- solid-state optics course description: basic concepts in crystals and in optical response; ... optical bistability: controlling light with light ... **light controlling light in a coupled cavity-atom system** - light controlling light in a coupled cavity-atom system ... there were earlier studies of optical bistability in three-level atoms confined in an optical cavity [5]. **controllable vacuum rabi splitting and optical bistability ...** - controllable vacuum rabi splitting and optical bistability of multi-wave-mixing ... optical bistability (ob) ... fwm processes by controlling the frequency detuning of
